## TEVO® MINI TABLETS

### ESPRESSO MACHINE CLEANING TABLETS

#### FOR DOMESTIC AUTOMATIC & TRADITIONAL MACHINES

Tevo® Mini Tablets can be used to clean domestic style automatic machines and also placed in the group handle for small traditional espresso machines.

#### HIGH PERFORMANCE

One tablet in the group head removes coffee oils, grounds and stains, improving the taste and aroma of espresso after the machine is cleaned. Tevo® Mini Tablets also leave no trace of odour.

#### CERTIFIED FOR ORGANIC USE

Tevo® Mini Tablets are registered by Australian Certified Organic (ACO) as an allowed input in organic systems. Tevo® Mini Tablets are free from phosphate and Genetically Modified Organisms.

#### SAFE FOR YOU & YOUR MACHINE

Safe for all machine parts, Tevo® Mini is listed with NSF Protocol P152. It has been tested, evaluated passed the most stringent toxicology and corrosivity standards. The ingredients and formulation of the products that are NSF certified are safe, leave no harmful residues and do not cause corrosion within the coffee machine.

#### RAPIDLY BIODEGRADABLE

All Tevo® Mini Tablet ingredients are all rapidly biodegradable meeting international standards.

#### INGREDIENTS

**Sodium Carbonate:** This is made by the purification of 'trona', a naturally-occurring mineral from the Green River Basin in Wyoming. It can also be derived from kelp or seaweed. It is found in toothpaste and used in bakery products. It is a very effective cleaning agent.

**Sodium Citrate:** Derived from maize sugar via fermentation, it is found in many soft drinks and is used in the production of some cheeses. It is used in Tevo® to optimise the pH during the cleaning process.

**Sodium Percarbonate:** This is an oxygen releasing agent that is widely used in toothpaste and denture cleaning tablets as well as other cleaning preparations. It is a wonderful cleaning and bleaching agent.

**Potassium Carbonate:** This is an alkaline agent made from naturally occurring potash rock sources and other minerals. It is often used in the production of wine and as a baking agent. It one of the ingredients that provides Tevo® with its exceptional cleaning performance.

**Detergents:** Tevo® also contains a special blend of ecologically friendly, readily biodegradable detergents approved for use by OMRI and BFA, two of the world's leading organic certification organisations.

#### HOW TO USE

Tevo® is a registered trademark of Cafetto Pty Ltd.

Always rinse with fresh H<sub>2</sub>O

#### IMPORTANT INFORMATION

The cause for the tablet appearance variation is due to one of the raw materials during the manufacturing process and is completely harmless when used in cleaning your coffee machine. As part of our approved supplier program, all raw materials and technical documentation are reviewed by our technical team and the raw material was assessed as suitable to be used for tablet production. Cafetto can assure you, our customers that the difference in tablet appearance are efficacious in cleaning your coffee machine. These specks leave no harmful residues, have no impact on product efficacy and will not cause corrosion within the coffee machine.
